

7th July 2026

Dear Helmut,

I have pleasure in belatedly sending you your plaque to formally recognise your Honorary Membership of the Norwich & District Photographic Society.

The omission only came to light recently when we needed to order a plaque for David Jennings and discovered that there was no record of one ever having been ordered for you. It seems you became an unintended victim of the disruption caused by COVID.

I have since checked the Society's records and can confirm that the Committee agreed to offer you Honorary Membership in November 2019. Under normal circumstances, this would have been confirmed at the next appropriate Annual General Meeting. Unfortunately, the disruption caused by the pandemic affected our normal administrative processes and, whilst your Honorary Membership was recognised, the presentation of your plaque was inadvertently overlooked.

At each AGM, the names of the Society's Honorary Members are read out and recorded in the Minutes. I can confirm that your name appears in the Minutes of the 2024 AGM and has continued to be recorded in the Minutes of the 2025 and 2026 AGMs, reflecting your status as an Honorary Member of the Society.

Please accept my sincere apologies, and those of the Society, for this administrative oversight. Your contribution to the field and your long-standing support of the NDPS have been greatly valued, and it is a pleasure to be able to send you the enclosed plaque, albeit rather later than it should have been.

With my very best wishes and kind regards,

Maurice Young
Programme Secretary & Officer of NDPS
